

Median MI (z-score, MA=20) with Peaks

MI Median Peaks Report

Generated: 20250716_231330

Statistical Interpretation:

- All MI session files with ≥ 240 samples were included.
- Each series was smoothed (moving average window=20) and z-score normalized.
- The median MI curve shows group-level dynamics.
- Peaks ($z > 1.5$) indicate shared moments of heightened MI.
- Number of detected peaks: 0
- Peak times (s): []
- Peak heights: []
